PERSONAL STATEMENT

An enthusiastic individual with a strong interest in Data, Analytics, and Business Intelligence, bringing extensive experience across diverse industries. Skilled in integrating and automating data workflows, extracting key insights from large datasets, and translating them into actionable recommendations to drive strategic decision-making and business success.

PROFESSIONAL EXPERIENCE

Dec 2023 – Present

Senior Business Intelligence Developer at AllCloud
- Design and implement automation and integration workflows using n8n and Workato, orchestrating processes across Salesforce, Jira, BambooHR, NetSuite, and other internal systems.
- Own complex AI-enabled automation use cases, building agentic workflows and internal assistants with clear guardrails, predictable behavior, and measurable operational impact.
- Design and deliver dashboards and reporting solutions in AWS QuickSight, focused on operational and business KPIs used by multiple stakeholder groups.
- Build and maintain analytics-ready data models in Snowflake, integrating data from multiple systems with SQL-based transformations to ensure accuracy and consistency.

Mar 2023 – Nov 2023

Business Intelligence Developer at Globant
- Developed advanced Business Intelligence solutions using Microsoft Fabric, Power BI, Databricks, Spark, SQL, Python and Azure to deliver actionable insights to business stakeholders.
- Collaborated effectively with cross-functional teams in an Agile environment driving innovation in data-related processes.

Jul 2021 – Feb 2023

Business Intelligence Developer & Team Leader at Transiris
- Managed a team of Business Intelligence Developers in successfully delivering data-related projects and Microsoft Power BI dashboards.
- Collaborated with data engineers and data scientists to collect data-driven insights, develop effective strategies, build dynamic dashboards and provide key insights to stakeholders.

Oct 2020 – Jun 2021

Marketing Automation Consultant & Team Leader at Transiris
- Provided subject matter expertise in implementing digital marketing campaigns, offering valuable insights and guidance to maximize the success of marketing automation efforts.
- Collaborated closely with global teams to strategically leverage databases and drive effective marketing initiatives, ensuring integration and utilization of data for targeted campaigns.

Feb 2020 – Sep 2020

Data Engineer at IBM Romania
- Joined the data engineering team as an intern and completed relevant trainings

Sep 2017 – Jan 2020

Quality Assurance Engineer at Vodafone Shared Services Romania
- Developed and executed automated tests to ensure the quality of networking products.

EDUCATION

Oct 2015 – Jun 2019

Bachelor of Science in Electronics, Telecommunications and Information Technology
Polytechnic University of Bucharest
- Relevant Coursework: Relational Databases, Programming, Data structures and Algorithms.

TECHNICAL SKILLS

- **Data Transformation**: SQL, Power Query, DAX, PySpark
